John –
 I don't know the reason for the change but will look into it and advise.

Gerry Ruopp

Hi Gerry,

The Test America submission of the Nov. 2018 sampling results for the P&T System effluent contains a summary of the detections on page 7. It is presumed this is a summary of all analytes detected in the sample. However, the sheet detailing the actual results of the full analysis for this sample appears to be missing from the submission. If you look at the sheet detailing the results of the Ex. 6 Personal Privacy (PP) analysis on page 10 of the submission--which shows the results for all of the analytes on the 8260C scan, not just the detections--you'll see the corresponds in type of sheet for the P&T effluent sample is missing. Provide the missing analysis to EPA. If you have any questions please contact me.

Respectfully,

John Nordine, CPG, LPG
